## **TempLine Athletic Field Marking Systems announces the addition of Burnett Athletics Inc. to Their National Distribution Network.**

Seattle, WA – May 22, 2014 – TempLine Athletic Field Marking Systems today announced the selection of Burnett Athletics Inc. in Campobello, South Carolina, to join the TempLine network of Distributors for their line of Athletic field marking products. Burnett will be carrying the complete line of TempLine turf marking paints, removers and conditioners. TempLine will also be working with the Burnett staff to ensure the availability of comprehensive local service and qualified technical support for TempLine customers.

“Since 2002, we have been delivering product and technical service from our single location in Seattle, WA. Growing demand from our eastern markets has made it necessary for us to pursue an expanded distribution and service model”, said Jeff Fisher, Business Division Manager for TempLine Athletic Field Marking Systems. “We have been exceptionally fortunate to find enthusiastic service partners like Burnett Athletics Inc., with strong customer relationships and the technical expertise to work with us in this undertaking”, added Fisher.

Burnett Athletics Inc. has been a trusted supplier of athletic field supplies and expert technical advice to southeastern markets since 1983. “Working with TempLine allows us to offer expanded service and a broader selection of quality turf marking systems to current and new customers” said Tom Burnett, President of Burnett Athletics.

TempLine products and equipment serve the needs of professional football and soccer teams, universities, municipalities and other athletic venues across North America. TempLine is a division of Eco Chemical Inc., an “Eco-centric” technology company, committed to manufacturing only non-toxic, water-based products since its inception in 1991.
